Brodering

1. Utarbeid motivet gjennom frimerkeskisser. Tenk brodering mens du skisser, slik at motivet består av både linjer og flater som skal fylles.

2. Tegn opp motivet med tavlekritt på stoffet.

3. Fyll flatene og linjene med ulike broderisting.

   Varier fargene/nyansene på tråden du bruker.

   Husk at tråden aldri må broderes helt "opp". Man må ha en liten stump slik at man får festet tråden.
